

1. TITLE OF THE CERTIFICATE (CZ)⁽¹⁾

**Vysvědčení o maturitní zkoušce z oboru vzdělání:
23-41-M/01 Strojírenství (denní studium)**

⁽¹⁾ In the original language

2. TRANSLATED TITLE OF THE CERTIFICATE⁽²⁾

**Maturita Certificate in:
23-41-M/01 Mechanical Engineering (full-time study)**

⁽²⁾ This translation has no legal status.

3. PROFILE OF SKILLS AND COMPETENCES

General competences:

- be familiar with various methods of learning, use sources of information well, show functional literacy;
- understand assignments or identify the cores of problems, exert variable solutions, be able to work both independently and within a team;
- formulate views and attitudes verbally and in writing, communicate on elementary level in one foreign language, be motivated to extend own language competences;
- cope with changing socio-economic conditions, be financially literate;
- be aware of the labour market mechanisms, and of the employee-employer relationships, act on career decisions responsibly, understand the significance of lifelong learning;
- be able to use basic mathematics and the basic principles of physics and chemistry when needed in daily situations;
- work with the means of information and communication technologies, exploit adequate sources of information, handle information effectively;
- act in an environmentally-conscious manner and in compliance with strategies for sustainability;
- support values of local, national, European and world cultures, recognize the value of life;
- exert fundamentals of health protection, occupational safety, and fire prevention and safety;
- exert norms and prescriptions in the field.

Vocational competences:

- design and size machine parts and mechanisms of machines and equipment, construct tools and manufacturing aids for machine production;
- select suitable materials and semi-finished goods for machine parts and tools, prescribe their heat and surface treatment;
- read and create parts diagrams, diagrams for assembly, schematics and other types of technical communication;
- propose technological processes for creating machine parts, tools, and products, describe their technological operation and technological conditions for operation, designate machine systems, tools, manufacturing aids, auxiliary and operational materials for them, and design conceptual operational tools and manufacturing aids;
- create programs for digitally controlled machines;
- determine manners and conditions for inspecting the quality of parts and products;
- prepare plans for caring for machines and equipment, propose diagnostic tools for determining technical condition or defects, determine ways to repair defects;
- keep records for the operation, maintenance, and repair of machines and equipment, prepare information to order spare parts;
- inspect machine parts and tools, measure linear dimensions, angles, shapes, and surface condition, measure basic technical quantities and participate in the comprehensive measuring and testing of machines and equipment, conduct tests on technical and operational materials;
- assess the results of measurements and tests, prepare records and protocols of these;
- apply the principles of technical norms and standardization, solve technical tasks by using norms, machine tables, and other sources of information;
- present thoughts and proposals using information and communication technologies, use application programs to support the design, construction, and technological preparation of production, and programs to help care for the technical condition of machinery.

4. RANGE OF OCCUPATIONS ACCESSIBLE TO THE HOLDER OF THE CERTIFICATE

Graduates are employed in the field of mechanical engineering in positions where they are responsible for the design, construction and technological parts of production processes, or the organization of operations in commercial technical services etc. As they are able to ensure the functionality of machinery and equipment, they may also be employed in non-engineering sectors.

Examples of possible job positions include: mechanical design engineer, production engineer, machine and equipment technician, production supervisor, dispatcher, quality control inspector, etc.

5. OFFICIAL BASIS OF THE CERTIFICATE

Name and status of the body awarding the certificate Střední průmyslová škola strojnická a Střední odborná škola profesora Švejcara Plzeň Klatovská 109 Plzeň 301 00 CZ public school	Name and status of the national/regional authority providing accreditation/recognition of the certificate Ministry of Education, Youth and Sports Karmelitská 7 118 12 Praha 1 Czech Republic
Level of the certificate (national or international) Upper secondary education completed by the Maturita examination ISCED 354, EQF 4	Grading scale / Pass requirements 1 excellent (výborný) 2 very good (chvalitebný) 3 good (dobrý) 4 satisfactory (dostatečný) 5 fail (nedostatečný) <i>Overall assessment::</i> Prospěl s vyznamenáním: Pass with Honours (the average mark is ≤ 1,5) Prospěl: Pass (an examination mark is not worse than 4) Neprospěl: Fail (the examination mark in one or more subjects is 5)
Access to next level of education / training ISCED 655/645/746, EQF 6	International agreements
Legal basis Law No. 561/2004 on Pre-school, Basic, Secondary, Post-secondary and Other Education (School Act) as amended by later regulations	

6. OFFICIALLY RECOGNISED WAYS OF ACQUIRING THE CERTIFICATE

Description of vocational education and training received	Percentage of total programme	Duration
<ul style="list-style-type: none"> • School- / training centre-based • Workplace-based • Accredited prior learning 	The ratio between theoretical education and practical training is defined by education providers themselves with regard to the respective educational programme and the employers' needs.	
Total duration of the education / training leading to the certificate		4 years / 4096 lessons
Entry requirements Completed compulsory school education

National Institute for Education, Education Counselling Centre and Centre for Continuing Education of Teachers – National Europass Centre Czech Republic Weilova 1271/6 102 00 Praha 10 Czech Republic		
Done at Prague for the school year 2016/2017		  stamp and signature

(*) Explanatory note

This document is a supplement to a specific diploma/certificate. It provides additional information on competencies gained in the given field of study and does not have any legal status in itself. The format of the description is based on the following texts: Council Resolution 93/C 49/01 of 3 December 1992 on the transparency of qualifications, Council Resolution 96/C 224/04 of 15 July 1996 on the transparency of vocational training certificates, and Recommendation 2001/613/EC of the European Parliament and of the Council of 10 July 2001 on mobility within the Community for students, persons undergoing training, volunteers, teachers and trainers and Decision No 2241/2004/EC of the European Parliament and of the Council of 15 December 2004 on a single Community framework for the transparency of qualifications and competences (Europass).
